

CogAT Grade 1 Printable Practice Test

Grade 1 · CogAT Level 7

Name: _____ Date: _____

Choose one answer for each question. Answers are on the last page.

1. Matrices

Look for the rule in the matrix.
Pick the missing piece.

	?

A

B

C

D

2. Number puzzles

Both sides must have the same number. Pick the missing box.

	=		+		+	?
--	---	--	---	--	---	---

A

B

C

D

3. Figural analogies

The top boxes go together.
Pick what belongs in the empty box.

	?

A

B

C

D

4. Number series

The beads make a pattern. Pick the string that comes next.

		?
--	--	---

A

B

C

D

Answers & explanations

1. C · 2. B · 3. D · 4. C · 5. D

1. **Answer C.** The inner and outer shapes switch places while keeping their colors. The black pentagon moves outside, and the white circle moves inside it. This gives C.
2. **Answer B.** Both sides must total four stars. Two stars are already shown on the right, so the missing box needs two more stars. This gives B.
3. **Answer D.** The first pair adds one shape and turns every shape to point left. Apply both changes to the arrows: three downward arrows become four left-pointing arrows. This gives D.
4. **Answer C.** The rods alternate between empty and six beads: empty, six, empty, six. The next rod must be empty. This gives C.
5. **Answer D.** Unfolding reflects each cut across the fold. The two inner semicircles join to make a full hole in the center, while matching half-holes appear on the left and right edges. This matches D.
